### Fashion Placements in Milan

In order to make your Fashion experience in Milan the most rewarding, we have created start dates that coincide with the most exciting and interesting period in the fashion industry calendar. The start dates below are designed so that the internship portion of the program begins during the build up to the Milan Fashion Shows and continues through these important events (depending on your program length). This schedule enables interns to experience this culminating time in the fashion industry as well as the city from start to finish. Please visit our **Milan Internship Program** page to learn more about program costs, duration/breakdown, language training, etc. It is important to note that responsibilities will vary based on your language skills, experience in the field, and duration of your internship.
